-

Work Experience

Division of University Advancement, Florida State University, Tallahassee, FL

IT Support Specialist

September 2025 – Present

- Provide enterprise end-user support for hardware, software, and access-related issues in a high-volume environment using Jira and Salesforce Service Cloud
- Support Windows 11 endpoint deployment using a preconfigured MDT imaging environment and assist with device provisioning and setup processes.
- Provide limited support for Windows Autopilot provisioning workflows within an enterprise device enrollment environment
- Administer Active Directory environments, including user provisioning, password resets, account creation/modification, group management, and role-based access across organizational units.
- Troubleshoot and resolve complex system and access issues, including escalation-level identity and permission problems, ensuring timely ticket resolution
- Maintain and update internal documentation across internal documentation system

IT Support Intern

January 2025 – September 2025

- Resolved hardware, software, and account-related issues through a centralized ticketing system in a fast-paced environment
- Assisted with workstation imaging, configuration, and deployment for new hires and device refresh cycles
- Supported Active Directory maintenance, including organizing users and computers within OUs
- Documented recurring issues and solutions to support internal knowledge sharing

Technology Specialist

June 2024 – May 2025

Florida State University College of Interior Design, Tallahassee, FL

- Served as primary IT support contact for faculty, staff, and students, providing in-person and remote troubleshooting
 - Designed and implemented an automated inventory management system to improve asset tracking and operational efficiency
 - Provided user training on printing systems and device usage, reducing repeat support requests
-

Certifications
